AS TO DR. SABIN

QUESTIONS and Answers with respect to the Sabin anti-polio vaccine.

Q. Should those who have any or all of the prescribed series of Salk "shots" take the oral vaccine?

A. Yes, even those who have had the Salk vaccine should take the sabin oral treatment It will act as a "booster" and give you added immunity, because it immunizes the intestinal tract as well.

Q Can the vaccine be purchased anywhere and taken by individuals?

A No It is available only through doctors and recognized institutions like the County Health Department and hospitals.

Q Why is it necessary to take the vaccine now, when we do not have any polio in the county?

A The nation is enjoying relative freedom from polio right now, but it is well known that this disease comes and goes in waves Therefore there is no assurance that the present situation will continue. By the same token, we do not have any cases of smallpox, yet we continue to be vaccinated against it The principle is the same and through the use of oral vaccine we hope to make polio as rare tomorrow as smallpox is today.

Q What does the vaccine taste like?

A It is a pleasant flavored liquid designed to appeal particularly to children who are the most susceptible to polio.

Q Would an overdose be harmful.

A No In carefully-controlled tests, measured overdoses have been given with no harmful after-effects

Q If my child has a cold will he receive the vaccine?

A Yes unless the cold is a severe one or unless it is accompanied by a fever? If in doubt, ask your doctor.

Q Where can I obtain additional information or answers to other questions on oral polio vaccine?

A From your doctor Don't hesitate to ask all the questions you can think of.

Q How about people over 65, say?

A. They should take the vaccine by all means. It is well known that "grandma and grandpa" have become carriers of polio without knowing it, even though they are not likely to have the disease themselves.

ORANGE JUICE VETERAN

HAROLD Lloyd, said to be the richest movie star of them all simply because he saved his money and never "throws" any parties, was born in Burchard, Neb

You'd have to look pretty closely at a map of Pawnee county to find Burchard, but it's there northwest of Pawnee City and there may be a billboard or some other tangible evidence that Harold was born there.

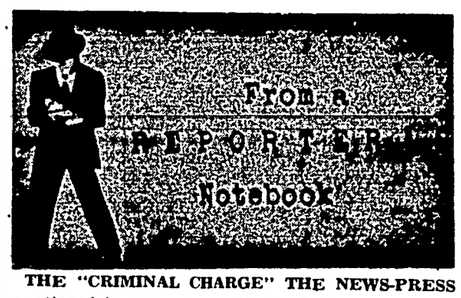

Not much has been heard from the comedian in the past few years but 40 years ago everybody heard about him and the comedies he produced and starred in including "Grandma's Boy," "Safety Last" and "Professor Beware." He was in New York to arrange for the opening of a new series of movies which will include excerpts from eight of his old-time plays. I wish I could name all of them but my memory is not that good.

Harold Lloyd is 68. A reporter who interviewed had a glass of orange juice with him. Thirteen years ago they drank the same beverage. Lloyd never absorbed any alcohol, having been brought up that way by parents who paid a lot of attention to their youngsters and their future

Harold is better known to members of the Shrine these days than anybody else because he was Imperial Potentate not long ago and keeps busy with his favorite charity, Shriners Hospitals for Crippled Children. Also he paints Artists will be interested to know that he invented a palette with tubes of paint affixed to it in a succession of colors.

He lives with his original wife, Mildred Davis, who once was his leading woman, and they are grandparents several times. The Lloyds live in a house which cost a million dollars in 1926 and in those days they could see for miles from the place which, by the way, I once visited with a lady who was Harold's school-mate is Wyoming.

THE "CRIMINAL CHARGE" THE NEWS-PRESS mentioned in connection with the Sabin vaccine program in Otoe county wasn't quite right

"Nominal" was what the story meant to convey, of course

And nominal it is, for where can you protect a member of the family from such a thing as paralytic polio for as little as 25 cents?

THE News-Press has received a few nominations of carriers boys to be considered for the Enterprise Boy trip next month If customers think their boys are doing good jobs as carrier-salesmen, their recommendations are invited

Folks in the islands are celebrating the 50th state fair this year in Hawaii and you can bet your best pair of boots, it'll be a humdinger

Our oldest daughter, Denise was born over there when the islands were still a territory and as a result she is a naturalized citizen We've kinda set our sights on making that trip in a few years when both daughters are old enough to appreciate it.

-:- -:- -:-

I've got an old Navy friend over there who served 26 and a half years and retired with a fat pension and a gallon of whiskey a week Claimed he always did a lot of entertaining an I was much obliged to agree that any one or party who could consume that amount of booze in a week probably was somewhat of an entertainer himself

Joe Nuzzo — his name — also smokes a special type cigar purchased especially from some firm in Cuba I haven't heard lately whether he has given up smoking Cuban tobacco or whether he has settled down to rolled palm leaves

-:- -:- -:-

If you've never been to the islands, then you must go Another fellow I became acquainted with in a year and a half there, was a Samoan, who said "you haven't lived until you visit Samoa" Claimed everything is greener — if that's possible — and much less humidity Samoa is below the equator

The grass skirt dancers you see in pictures still meet ships and airplanes The girls are professional dancers I've watched many an arrival in the islands, but have always thought the leaving celebration is very touching and heart warming Paper streamers by the thousands are thrown from ships to docks, islanders dance, there is music and passengers on ships throw flowers over the side Tradition says that if the current carries the flowers back to the docks, you'll return

-:- -:- -:-

Hawaii I use the term meaning all the islands and not just the island named Hawaii — is the only place where I have ever heard or seen barefoot football As a matter of fact, the islanders are great sportsmen and faithful to sporting events The championship high school football game the last year we were there attracted almost 26-000 people

-:- -:- -:-

Flowers grow like dandelions do here Vanda meaning baby, small or infant — orchids have little value when sold separately A lei of 200 to 300 of them sells for $1

My wife just about flipped the first time she bought a dozen eggs $1 25 but then at that time everything was high Don't let that discourage you, if you ever get that chance go!

You'll never regret it
