Just in case you might be wondering why County Attorney Betty Peterson Sharp or her deputy, R. J. Obbink, are on the scene where there are accident fatalities and certain other deaths, the officers must be there to act as county and deputy coroner In case neither of the county officials is able to be on the scene, Mrs Sharp may name Sheriff Ralph Hall to act as coroner.

The Junior Chamber has discussed heading up a project to build a second tennis court. Although not approved, $200 was indicated to be the amount the Jaycees would contribute.

Many News-Press readers will remember well the tennis court job of a few years ago. The project attracted a lot of interest.

I've often wondered why such a project in a public park should be done with contributions rather than inserting it into a city budget. But I suppose it's a matter of "if you want to get anything done, do it yourself" (P.S. I've yet to play my first game of tennis)

It was a little shocking, to say the least, to learn in a Chamber of Commerce survey that approximately 40 per cent of the employes at 12 Nebraska City industries DON'T live in Nebraska City.

Why?

There ought to be some way, some selling project or some other inducement to get those folks to move to town

The Nebraska City park board is to be commended for employing Ed Cole as the city park superintendent. His energy and interest are seen throughout the parks. He "scrounged" wiring and lights last Christmas and decorated trees, spent many evening hours painting signs of cartoon characters for the children's playground, is planting 30 pin oak trees in the park and paints and dresses up just about everything too big to move.

Youth conned into bank theft attempt

SARASOTA, Fla. (UPI) — A search was being made today for an unknown man who conned an 11-year-old boy into trying to rob the National Bank of Sarasota

The youth was taken into custody at the bank Friday after handing a paper sack to a teller along with a note telling her to fill the sack with bills or her family would be harmed.

The youth told FBI agents and local police that a man stopped him at a shopping center across the street and promised him $1 if he would deliver the sack and the note to the bank for him

The boy said he was given 50 cents and the man promised to give him 50 cents more when he returned from the bank

Authorities said the boy rode his bicycle up to a drive-in window and gave the sack and note to the teller. She told him he would have to go inside the bank and he did. There, the teller he approached told him he would have to see the head teller and then notified the guard who held the boy for police

IN MEMORY OF RICHARD D. ROWEN

April 17 would have been Dick's birthday and a day for celebration. Now our comfort comes in knowing that a living memorial to him is present with all those of us whose lives he touched, and know you share with us the pleasant memories of his life, as well as the deep grief in his loss.

We wish to thank all the relatives, friends and organizations for their acts of kindness, the beautiful flowers and generous contributions to Memorial Funds.

We know Dick would have been pleased with the Memorials to the Brownville Museum, State Historical Society in Lincoln and the Bryan Memorial Home in Lincoln. He believed in Memorials as we believe most Historians do.

We are very pleased with the purchase of the lamps for the Brownville Museum from his fund. We wish to thank the committee for their prompt action in having them ready for the spring opening.

The Junior League purchased two Persian brass urns for the mantel at Fairview with donations in his memory from the Nebraska Legislative Ladies League, Sons of American Revolution, the Junior League Community Trust Fund and Mary Peterson. We want them to know how very much we appreciate this wonderful gesture.

The State Historical Society published his almost finished work on Nebraska's Campaign Against the Sioux in the Nebraska History for March. His article on "The Great Commoner's Home," was published in the April issue of Historic Preservation. For this we are very grateful, as he had spent a lot of time doing research for these articles.
