The buck Ends here . . . .

By Ivan D.E. Beaumont

Joy Thornhill says the only way to go is by train.

The Thornhills spent the holidays visiting relatives in Colorado. They traveled by train from Omaha to Denver and back again.

The train was loaded with passengers and for many, it was standing room only, Joy reported.

He enjoys traveling by rail. "You're rested when you get there."

With all respect to Joy and the train porters, I'll take the cute stewardesses on the jets any day.

Mrs Orville Warnke, Dunbar, doesn't admit this, but she is the public relations and chief sales manager for the Jolly Trippers.

In case you've missed out somehwere, the Jolly Trippers are Otoe countians who charter a bus each year and put on miles and miles and miles, and they have a ball!

Mrs Warnke gave a travelogue to Optimists the other day that should be viewed and heard by more people. She does a good job of it and her pictures are interesting.

The Jolly Trippers generally take about two-week trips. They have been to the Northwest, the Northeast, Washington, D.C., and are planning a trip to the Southwest next fall.

Their trip to Washington, D.C. was to plant a tree on the Capitol Grounds. They took along Mary Lindell, the youngster who designed the Otoe county Centennial flag. Nebraska senators greeted the Jolly Trippers and the group had a tree planting ceremony on the grounds.

Mrs Warnke said she became interested in the organization of the Jolly Trippers from the first story she read. Her husband had been in the service and had traveled a great deal. "But I'd never been any place."

She has now.

The Jolly Trippers have become an elite group. Original members have first choice at reservations. Ed Bottcher, Talmage, organizes the trips "and he does just a wonderful job," Mrs Warnke says.

Despite one of the biggest deer hunting seasons this year, there are still hunters who bag deer after the season closes.

State Game Officer Mick Gray said penalty on conviction could result in $400 in fine and liquidated damages.

One of the ways law enforcement officers know about illegal hunts is when someone reports a crippled or dead animal along a roadway or in a field. Often the meat is wasted.

The most colorful report about the goings on at the nuclear plant at Brownville came the other day from Jack Swalley who seems to find humor in his work despite the frigid temperatures.

But he's been pretty silent about the hidden treasure we read about the other day. John Everett wrote about family talk years ago of a sunken river boat near the Swalley property along Goose Hill road.

S'funny Jack never said anything about it. . .the treasure was whiskey.

New deadline for farmers, fishermen

Farmers and fishermen have until March 1 rather than February 15 to file 1969 federal income tax returns.

The new March 1 deadline will allow time in which to obtain all wage, interest and dividend statements and other tax information which in past years has sometimes been difficult to obtain to file the return by February 15, Arlen Granneman of the Granneman Agency, said today.

Earl Braye Jr. said that this is part of the new tax bill recently signed by President Nixon. This provision applies to those returns for tax years beginning after 1968 of farmers and fishermen who do not file estimated tax payments.

Form 1040 U.S. Individual ... Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q) I kept a record of my earnings and withholdings for the year and am all set to file my return. Do I have to wait until I get my W-2?

A) Yes, one copy of all W-2's must be attached to your tax return when you send it in. Processing of the returns and refunds are delayed if this is not done You should receive your W-2 no later than February 2.

Note that this year, the W-2 should be stapled to the *back* of Form 1040 rather than the front.

Q) Is there any change in who has to file a return for 1969?

A) Filing requirements for 1969 Federal income tax returns are unchanged from last year.

To summarize them, a return must be filed by every person under 65 who had gross income of $600 or more for the year. For those 65 or older on the last day of tax year, a return does not have to be filed until gross income reaches $1,200.

Also, anyone who has net earnings of $400 or more from self-employment, is required to file a return and pay self-employment tax.

Filing requirements also apply to minors. A parent or guardian should file a return on behalf of a child who has gross income of $600 or more during the tax year. In every case, you must file a return to get any refund due.

Q) I'm a senior at college and I'm due a tax refund on some part-time work I did. Can I claim my own exemption without causing my father to lose the exemption he claims for me?

A) Yes, if you were a full-time student during some part of five months of the year, you can claim your own exemption and your father will not lose you as an exemption, so long as the necessary dependency tests are met. In this situation, the same exemption can be claimed on two returns, yours and your parent's.

Q) What taxes can I deduct?

A) If you itemize deductions, state and local income, sales, gasoline, personal property and real estate taxes may be deducted. These should be listed on Schedule A Itemized Deductions, and attached to your Form 1040.

Those who itemize will find that using the new Schedule A provides more room to list things such as medical expenses and charitable contributions than was available on the back of the old Form 1040.

Q) Where can I get a copy of your tax guide?

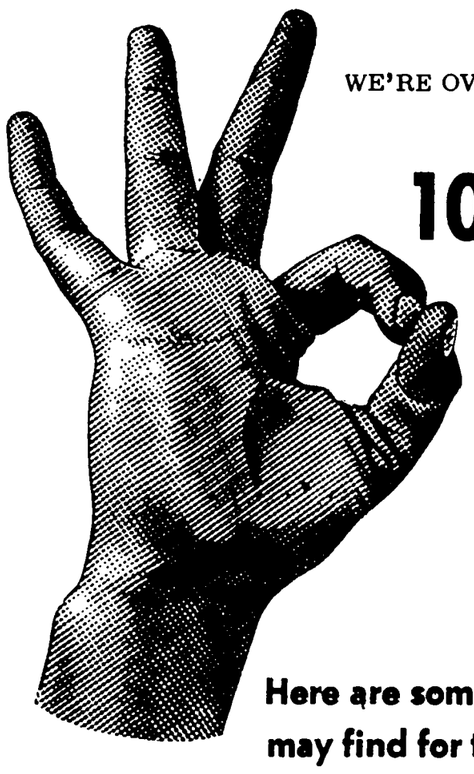

A) A copy of Your Federal Income Tax 1970 edition may be purchased from most IRS offices for 60 cents. You may also obtain this publication by using the order form on the inside cover of the 1040 tax form package. Send a check or money order with the order blank to the Superintendent of Documents, Washington, D.C. 20402

Q) Other than the fact that color makes the form look nicer is there any advantage in having red, white and blue tax forms?

A) It is expected that color will draw the taxpayer's attention to those areas on the tax form where errors are made which lead to delays in processing returns and issuing refunds. The instructions for using the pre-addressed name label and signing the return, for example, are highlighted in red.

Common reasons for delays in processing returns and issuing refunds are a missing or inaccurate Social Security number or an illegible name or address. When a return is filed using the label showing the taxpayer's correct name, address and Social Security number, this cause for delay is removed.
